# MESSAGE FROM OUR MAYOR DAVID FLEISHER

Dear Neighbor,

One of the many benefits of living in Cherry Hill is the variety of fun and interesting things to do.

My administration and my colleagues on Township Council are committed to fostering a community where there are opportunities for residents of all ages and backgrounds to come together and connect with one another.

As you page through this issue of the Cherry Hill Township Community Magazine, you'll find information about dozens of upcoming activities and classes ranging from art lessons for our youngest residents to pickleball or yoga classes for adults and seniors.

With more than 50 parks, playgrounds and sports fields throughout the Township, you're never far from a place where you can enjoy the outdoors. And with the robust programming at our award-winning public library — the heart of town — there's always something to check out.

Also in this issue, you'll find important information about Township services, such as trash and recycling, public safety, and programs for seniors along with a handy telephone directory for when you need to reach Town Hall, including our new Constituent Services team that is specifically there for YOU.

Keep their number 856.488.7878 and email address [connect@chnj.gov](mailto:connect@chnj.gov) close by.

Whether you join us at one of our special events, take advantage of one of the many volunteer opportunities available or sign-up for a sport or class, I hope you have the chance to connect with your neighbors and other community members this spring and enjoy all that Cherry Hill has to offer.

Thank you for calling Cherry Hill home.

Your Mayor,  
Dave Fleisher

# SAVE YOUR PIPES

## DON'T FLUSH WIPES!

Flushing disposable wipes causes costly damage to equipment. Please help by not flushing any type of wipe even if the packaging indicates they are flushable. Although your toilet can flush wipes, they do not degrade in pipes. This causes backups in homes and in streets.

## PLEASE DO NOT DEPOSIT DOG DROPPINGS INTO A NEIGHBOR'S TRASH BIN OR A STORM DRAIN

Please respect another person's property. The NJ Stormwater Management Act is a government mandate to control the run off of water from rain or snow. With each rain and snowfall, pollutants are washed down the streets and lawns into stormwater drains that flow into our waterways and ocean.

**DOG WASTE IS POLLUTED RUNOFF THAT  
CAN GET INTO OUR WATER SUPPLY**

Please be a considerate neighbor and keep our waterways clean!

## Vegetative Yard Waste Do's

## CHERRY HILL ENVIRONMENTAL BOARD

### Planting a Pollinator Garden

Help the bees, butterflies and other pollinators by planting your own pollinator garden! No matter how large or small, it will provide a habitat for pollinators that will add beauty to your yard and sustain pollinators crucial to the environment. Follow the steps below, and your yard may even qualify for the National Wildlife Federation's Certified Wildlife Backyard (for details, visit: [www.nwf.org/Home/Garden-for-Wildlife](http://www.nwf.org/Home/Garden-for-Wildlife)).

1. Prepare your site by removing grass and other plants, including the roots. Consider a soil test and observe the soil, drainage, and amount of light. Do not use landscape fabric or black mulch.
2. Choose native plants which are already adapted to the local climate. For a list of recommended plants and other pollinator garden resources, visit: [www.chnj.gov/pollinatorgardens](http://www.chnj.gov/pollinatorgardens). Avoid hybrids. Buy seed/plants that will thrive in your yard's condition (i.e. shade, full sun, etc).
3. Specifically choose plants that are pollen and nectar rich in a range of shapes, sizes, and colors. This helps attract pollinators. Choose plants that will provide blossoms from spring to fall.
4. Provide a water source for birds that is no deeper than two inches. A simple roasting pan will do the trick. Be sure to change the water every day. Provide an area for perching and resting, such as an old log or branches.
5. Avoid pesticides, if possible. Many will kill the pollinators you are trying to attract. If necessary, use organic or natural pesticides, preferably before the plants flower. Some herbs can be planted as companion plants to deter pests.
6. Save clean-up of the perennial plants until the spring. These plants provide protection and a nesting site to the pollinators, especially native bees over the winter. Also, seed heads and berries can provide winter food for non-migratory birds like cardinals, white-throated sparrows, and Northern Juncos.
